

REGUPOL®

AKTIVPRO™ ROLL

Raising the Bar by Leveling the Floor

 **REGUPOL®** AMERICA

Top athletes are pushing their training to the limits to gain the edge needed to be the best. Regupol AktivPro Roll is a full 1" thick inlaid platform floor – providing the durability to withstand the impact of Olympic weight lifting, yet provide

raising the bar by leveling the floor

stable footing and shock absorption for the athlete. Gone are the days of the raised platform; AktivPro Roll floors are virtually seamless, allowing the athlete's training to flow from movement-to-movement.

The people of Regupol America were with us every step of the way during the five years of planning for our new facility. The expedient installation, the appearance, and the function of the Regupol Aktiv-Pro Roll floor have been flawless — they helped us create the perfect weight training facility.

REGUPOL®

AKTIVPRO™ ROLL

performance measured in durability

AktivPro's composite structure provides the ultimate durability and unparalleled wear resistance, making it the ideal choice for training the country's top athletes. With its ability to withstand the most intense abuse, AktivPro performs well for a range of activities including heavy weight training for pro sports, colleges and universities, high school sports, military, and general fitness facilities. On top of that, a ten-year warranty ensures AktivPro will be protecting your athletes and your facility for a long time to come.

Our training facility currently utilizes the Regupol® AKTIVPRO roll system for our weight room flooring and inlaid platforms. The AKTIVPRO roll system has provided our team with the ability to train at a high level while greatly enhancing the aesthetics of the room.

underlayment customization

Solutions to fit whatever your flooring surface needs are.

Regupol offers 3 engineered underlayments — Plyo, Fitness, and Impact – each with a specific need in mind. All three are designed to reduce impact and absorb shock under your athletes training surface. By offering varying densities and thicknesses, it allows us to customize any system for your athletes.

Plyo

Soft on the feet by offering extremely high shock absorption. **Ideal workouts:** Box Jumps, Lateral Jumps, Broad Jumps, Skater Jumps, Scissor Jumps, Rocket Jumps, Dot & Ladder Drills, Lateral Box Shuffles, Barbell Jump Squat, Ball Burpees, Feet Jack

Fitness

A combination of the Plyo and Impact options offering ideal shock absorption and handling most workouts. **Ideal workouts:** Kettlebell Press/Row, Dumbbell Press, Barbell Squat/Press/Lunge, Battling Ropes, Long Bar Row, Bodyweight Flyes/Lunge/Squat, Ball Squat/Push-Up/Crunch, Box Squat, Cables

Impact

A flooring system that not only offers ideal shock absorption, but also handles any type of Olympic Weightlifting workouts. **Ideal workouts:** Clean, Clean & Jerk, Clean/Snatch Deadlift, Deadlift, Snatch, Overhead Squat, Power Clean, Push Press, Split Clean/Jerk, Squats

REGUPOL CRASH

Crash is our ultra-dense surface that is used for the “drop-zone” of inlaid platforms, as well as critical areas that require ultra-dense rubber performance surfaces.

Over 40 years ago, German company BSW put a new spin on tires – a sports and fitness spin. BSW invented the technology to recycle tires into rubber flooring that forever changed the fitness world. Today, working with Regupol America gets you much more than recycled rubber sports and fitness surfaces. Because we've been working with the technology since day one, you benefit from four decades of experience and expertise

Revolutionizing sports and fitness flooring

that only the inventor can offer. That means the right information, advice and answers, right when you need them. And a high-end product that's been refined, tested and retested over the years by our R&D team to provide advanced athletic performance. It's all accomplished with manufacturing to the highest quality standards, according to the strictest environmental requirements.

REGUPOL®
AKTIVPRO™ ROLL

REGUPOL®

AKTIVPRO ROLL™

We are excited about our Regupol floor with wood insert platforms. The wood inserts are perfect for all our Olympic lifting exercises. The lifting area is completely flush to the entire floor. This adds to the safety we are looking for in our room; we don't worry about our athletes falling off a platform or tripping and falling. The floor is great for engaging in all types of speed work, agility, stretching, and jumping.

Lou Hernandez

performance measured in sustainability

We're green, but you don't have to take our word for it. Regupol America has earned GreenCircle Certification, a third-party certification of sustainable aspects of products and manufacturing operations. GreenCircle evaluates and verifies the information provided by the manufacturer, and that the manufacturer is capable of, and consistently produces a product that is in compliance with their sustainability claim. Regupol products can contribute to the qualification for LEED points.

customization capabilities

Regupol America offers solutions for customizing AktivPro and other products so that your floor plays an active role in the continuity of your brand. Using our precision water-jet cutting, your logo, tagline or inspirational message can be incorporated into your Regupol floor.

REGUPOL®

AKTIVPRO™ T.E.A.M.

Factory Certified Sales & Installation Specialties

Regional control — sales, installation and distribution of AktivPro specialty sports floor systems.

Regupol America is providing a team to meet the client demands for a unified manufacturer controlled systematic approach to distribution, and installation of specialty sports flooring products in the Athletic market for schools, universities, and professional athletics. This will insure the quality of each system is the same, whether the job is in Chicago, Houston, New York, Los Angeles, Philadelphia, or Seattle.

Schools and universities were looking for an installed product system for the heavy demands of Athletic Sports strength and conditioning training, with a manufacturer controlled network that reduced the chain of responsibility, allowing for a direct path from manufacturer to the end user.

Each AktivPro Team is a factory certified sales and installation team, and a direct arm of the Regupol America operation. All members follow one set of rules and standards. The Aktiv Pro Team brings unparalleled service to every client regardless of location, size, or need. Every job is performed to the highest Regupol America standard.
